LOCAL ROAST

PT. LMK has spent a lot of time sourcing some of the best beans Indonesia has to offer. They then, with careful roasting and blending, create blends of premium coffee suited to different purposes for your enjoyment. All their beans are sourced direct from the farmers and carefully hand sorted to deliver the finest product to their customers. Sourcing direct from the farmer enables them to give feedback and control the quality more carefully.

Merah Putih - They sourced premium Grade 1 Arabica beans from Sumatera and Java to create a blend specifically to showcase the

best Indonesia has to offer. With lovely honey overtones and a clean acidity that refreshes the palate, this coffee is beautiful as both an espresso and in milk based coffee drinks.

Java Joe - there was a demand for a truly great brew or moka pot coffee in the Indonesian market created from Indonesian beans. So they sourced Arabica from Java and Robusta from Sumatera to create a blend with a lovely smooth soft character, rich full flavour and clean finish. Great for starting the day or giving a kick start later.
